smplsolutions
20503 Crescent Bay Dr.
Lake Forest, CA 92630

Mr. Case:

Thank you for the prompt, quality service you provide to our 4 locations. Your team has been able to handle our programming, cabling and carrier needs as well as some special requests. After installing a new phone system at our LA and South Bay locations, your team was able to set up a custom multi-location paging system connecting our LA, South Bay and Beverly Hills Corporate Office locations. This has made communication between sites much simpler. Recently, we had a firm opening date for our South Bay location, but Verizon and AT&T were unable to set up our service by that date. Your team treated our situation as an emergency provided us with a temporary solution to keep our office running until our long-term service was connected.

Your company provides quality solutions quickly, which has helped our locations communicate and run smoothly. Thank you for your qualitative services.

Regards,

Rosella Locatelli
