David:

I am writing this letter to commend you and your staff on the service we have received during the past three years. Your technicians have provided our schools and offices with excellent support. Originally, we selected smplsolutions based on a bid you submitted in 2012, and have continued to use your services throughout the school district for system maintenance, programming changes on our telecom systems, troubleshooting and cabling installations. Your technicians are always professional and courteous, and abide to our procedures when working around students.

Thank you for all the wonderful service and the high level of professionalism!

Sincerely,

Gioconda Padilla, MPA
